Re: Proposed Coumnagappul Wind Farm in the townlands of Coumnagappul, Carrigbrack, Knockavannia mountain, Barricreemountain Upper and Glennaneane mountain, Skeehans, Lagg in Co. Waterford

Dear Resident,

As communicated via previous project correspondence we, EMPower, are actively exploring the potential for a wind farm development opportunity in the Coumnagappul area of Co. Waterford. The Coumnagappul wind farms main Study Area is located approximately 16km northwest of Dungarvan. You will find more information on this proposed project and on EMPower at www.coumnagappulwindfarm.ie.

The proposed project is now at a stage where all the environmental assessment survey data has been gathered and collated and the final ground investigations are underway. This has informed updates to the proposed project's third design iteration as detailed in the enclosed project Newsletter.

We will distribute future project information as the final design proposal is produced, and we approach a project planning submission. We hope that our project updates set out relevant information on the project design process and follows up adequately on some of the conversations and queries we have had to date with interested stakeholders and community members.

To supplement the proposed project's design process, we have also compiled a dedicated Online Community Consultation Exhibition. This is available at www.innovision.ie/coumnagappul and includes added design detail on topics such as landscape and visuals, transport and delivery routes and layout maps with added functionality. There is also an interactive 360° photomontage viewer which shows the project as it would look if built out from numerous vantage points around the projects Study Area. This can also be accessed from the home page of the project website www.coumnagappulwindfarm.ie.

We will continue to make every effort to ensure that we provide you with all the information you need to fully understand the details of this proposed project, and we would welcome the opportunity to discuss any aspect of the proposed Coumnagappul project with you. Please make contact with the Project Team using any of the contact details below if there are any areas of the proposed project design you wish to discuss further or if you have suggestions on how we might distribute our project messaging to suit you best.

Yours Sincerely

A handwritten signature in blue ink, appearing to read "Diarmuid Twomey".

EMPower

Diarmuid Twomey,
